

VIGHNESH MHATRE

Junior Data Scientist | Python Developer | Data Analyst

Navi Mumbai, India | vighneshmhatre00@gmail.com | linkedin.com/in/vighnesh-mhatre | github.com/Vighnesh1045

PROFILE SUMMARY

M.Sc. Data Science postgraduate with hands-on experience in end-to-end data pipelines, building predictive models, and business intelligence Systems. Reduced reporting turnaround by 87.5% through AI-assisted automation; audited 8,000+ records to drive data integrity. Proficient in Python, SQL, Power BI, and Machine Learning. Passionate about delivering measurable business impact through data-driven decisions.

SKILLS

Data Analysis & BI Tools: Python with Numpy & Pandas, Power BI DAX & Power Query Editor, Excel VBA Macro, Tableau Prep Builder

Data Visualization Tools: Python with Matplotlib & Seaborn, Power BI Dynamic Charts, Tableau Data Visualization

Probability & Statistics: Descriptive, Inferential and Hypothesis, Probability Distribution Function & Types

ETL Tools: Feature Engineering with python, Data Preprocessing, EDA

Programming Languages & Frameworks: Python (OOPs, Flask & Streamlit), HTML, CSS and Javascript

Databases: MSSQL Server, MYSQL Server

Cloud Tools & Platforms: AWS(EC2, IAM, S3), GCP(Google BigQuery), Azure ,Snowflake

Soft Skills: Data Storytelling, Cross-functional Collaboration, Stakeholder management, Technical writing

WORK EXPERIENCE

Business Analyst Intern | Anvex AI Technologies Solutions Pvt. Ltd. | March 2026 – June 2026

Kandivali, Mumbai, India | Full-time Internship

- Situation: Inherited a dataset of 8,000+ ANPR records with no prior quality validation framework in place.
- Task: Audit the full dataset and design repeatable quality checks to prevent downstream reporting errors.
- Action: Built a systematic audit process in Python/Excel, flagging anomalies and categorizing discrepancy types across all records.
- Result: Identified an 18.5% data discrepancy rate, directly strengthening data quality controls and preventing faulty entries from reaching production reports.
- Situation: Legacy VBA macros produced reports in 120 minutes, creating a bottleneck for weekly business reviews.
- Task: Reduce turnaround time without rebuilding macros from scratch.
- Action: Applied AI-assisted prompting to intelligently reformat and refine macro output logic, automating 60%+ of manual formatting steps.
- Result: Achieved an 87.5% reduction in reporting turnaround time (120 min → 15 min), saving ~7 hours weekly across reporting cycles.

Machine Learning Intern | YBI Foundation | July 2025 – December 2025

Remote | Part-time Internship

- Situation: Foundation required ML models to support data science education and real-world problem-solving initiatives.
- Task: Support development, testing, and evaluation of multiple supervised learning models.
- Action: Built and iterated on classification and regression pipelines, tuning hyperparameters and validating performance on held-out test sets.
- Result: Delivered models in the 90–92% accuracy range, contributing to curriculum-ready demonstrations and research outputs.

PROJECTS

Insurance Analytics Dashboard | Power BI, Excel

- Designed an interactive Power BI dashboard analyzing \$600M+ in policy coverage and \$16.9M in claims across 10,000 policies, enabling underwriters to cut analysis time by 30%.

Loan Default Prediction | Python, Streamlit

- Built a Random Forest classifier with 90%+ accuracy, deployed via Streamlit, to predict loan default risk — enabling automated risk flagging for new applicants.

CricGenAI — M.Sc. Research Project | LangChain, LLaMA 3.3 70B, SQLite, Streamlit

- Engineered a multilingual (English, Marathi, Hindi) NL-to-SQL system for cricket data using LangChain SQL agents — supporting 3 languages with zero manual query translation.

Mini CRM | Flask, SQLite

- Developed a lightweight CRM web application for end-to-end customer record and interaction management, reducing manual tracking effort for small teams.

EDUCATION

M.Sc. Data Science | 2024-26

VPM's B.N. Bandodkar College, Thane | CGPA: 8.57 | Rank 1 – Semesters 1 & 4

B.Sc. Information Technology | 2021-24

SIES College, Nerul, Navi Mumbai | CGPA: 8.72

CERTIFICATIONS

- Data Analyst BootCamp — Udemy | KRISHAI Technologies
- Scientific Computing with Python — freeCodeCamp.org
