

VIGHNESH MHATRE

Junior Data Analyst | Business Analyst | VBA Developer

Navi Mumbai, Maharashtra | +91-7738944099 | vighneshmhatre00@gmail.com | linkedin.com/in/vighnesh-mhatre

PROFILE SUMMARY

Detail-oriented Data Analyst with hands-on experience in SQL, Python, Power BI, and Excel — building dashboards and automated reporting pipelines that reduced manual effort by 85%. Proven ability to collect, clean, and transform complex datasets into actionable insights for enterprise clients. Skilled in requirement gathering, stakeholder communication, and end-to-end data analysis processes. Eager to drive data driven decision-making through rigorous analytics and visualization.

TECHNICAL SKILLS

- **Languages & Analytics** SQL (MS SQL Server, MySQL), Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn)
- **Data Visualization** Power BI (DAX, Power Query), Tableau, Excel (Pivot Tables, VBA Macros, Charts)
- **Business Analysis** Requirement Gathering, BRD / FRD / SRS, KPI Tracking, Stakeholder Management, Technical Documentation
- **Data Processes** Data Cleaning, Data Transformation, Data Validation, EDA, Process Automation, Reporting
- **Cloud & Tools** AWS (EC2, S3, IAM), Flask, Streamlit, Git / GitHub

WORK EXPERIENCE

Tech Business Analyst Intern | Anvex AI Technologies, Mumbai | Mar 2026 – Jun 2026

- Manual campaign reporting on 3,000+ call logs consumed 120 min/cycle. Automate reporting. Engineered Excel VBA macros to auto generate campaign sentiment reports from raw call data. Reduced reporting time from 120 to 15 minutes — **85% efficiency gain**.
- Client proposals lacked AI reliability benchmarks for gated-community ANPR deployments. Validate Anvex Vision AI output accuracy. Designed structured evaluation frameworks across Animal Detection, No-Helmet Violation & Crowd Monitoring modules; analyzed 3,421+ alert records. Identified **18.5% fuzzy-matched records**; benchmarks adopted across enterprise client onboarding proposals.
- Built AI calling analytics pipeline (Python + Power BI) visualizing success rate, sentiment, and recovery insights — enabling clients to interpret user behavior trends and project operational recovery timelines.

Data Science Intern | YBI Foundation, Remote | Jul 2025 – Dec 2025

- Business requires predictive models across multiple analytical use cases. Build and validate high-accuracy classification pipelines. Developed models using Python (Scikit-learn, Pandas, NumPy) with rigorous EDA and feature engineering; visualized results with Matplotlib & Seaborn. Achieved 90–92% accuracy across projects; insights adopted for stakeholder decision-making.

KEY PROJECTS

Supply Chain & Business Optimization Dashboard · Power BI · SQL · DAX

- Identified critical supply-demand gap (demand 151 units/day vs. availability 76 units) explaining a **\$61K inventory shortfall** and **\$8M risk exposure**; recommendations drove **5% inventory optimization** and uncovered a **\$301K profit opportunity**.

Insurance Customer Analytics Dashboard · Power BI · SQL · DAX

- Built interactive dashboard monitoring **\$600M+ coverage**, \$16.9M claims, and \$5.98M premiums across 10,000 policies; segmented \$136M+ pending and \$261M+ rejected claims by age group and policy type for underwriting and executive reporting.

Loan Default Prediction Application · Python · Scikit-learn · Streamlit · Power BI

- Trained Random Forest Classifier achieving **~90% accuracy** (precision 0.88, recall 0.86); deployed as interactive Streamlit app; Power BI feature importance visuals enabled non-technical stakeholders to interpret risk drivers.

CricGenAI — Conversational AI Analytics Agent · NVIDIA NIM · Llama 3.3 70B · SQLite · Streamlit

- Built NL-to-SQL AI agent (M.Sc. Research Project) enabling non-technical users to query cricket statistics in English, Hindi & Marathi; resolved LangChain conflicts and hallucination bug via targeted prompt engineering.

EDUCATION

M.Sc. Data Science | B. N. Bandodkar College, Mumbai University, Thane | Jun 2024 – Apr 2026 | CGPA: 8.53

B.Sc. Information Technology | SIES College, Mumbai University, Navi Mumbai | Jun 2021 – Apr 2024 | CGPA: 8.72

CERTIFICATIONS

Data Analyst Bootcamp — Power BI, Tableau, SQL, Excel, AI Tools for Data Analytics — Udemy

Scientific Computing with Python — Python Fundamentals, OOP, File Handling, Exception Handling — freeCodeCamp
